

EXPERT CONSULTING

AI

OPERATIONALISE AI AT SCALE, WITH CONFIDENCE.

AI HAS THE POTENTIAL TO TRANSFORM YOUR BUSINESS. BUT IT CAN BE DIFFICULT TO KNOW WHERE TO START – AND HOW TO KEEP UP.

AIIIMI HAS THE STRATEGY, TECHNOLOGY, AND EXPERTISE TO FIND YOUR FORMULA FOR AI SUCCESS.

► **Discovery sessions** to find your best way forward with AI.

Identify practical near-term steps, educate senior leadership to set realistic expectations, myth-bust the value and viability of tools like ChatGPT.

► **Identify high-priority use cases and run AI pilot projects.**

Aiimi's approach to [AI Strategy](#) is agile, practical, and balances quick wins with long-term value. Our consultants are taking organisations from 'AI curious' to 'AI operational' in months.

► **Use our enterprise platform to access high-quality data for AI training.**

Successful AI pilot projects rely on good data; the [Aiimi Insight Engine](#) automates the process of discovering, classifying, and enriching data for AI use cases, for accurate outcomes.

► **Bring AI functionality to end-users via our AI-powered platform.**

For Aiimi Insight Engine users, answers are now even closer at hand, with new generative and extractive AI tools built in for the best [enterprise AI experience](#).

AI IS ONLY AS GOOD AS THE SOURCE DATA.

So you need to get data quality and governance right, for AI outcomes you can trust.

AI ISN'T ONE SIZE FITS ALL.

So you need practical AI use cases prioritised by impact, complexity, and data readiness.

AI CAPABILITIES ARE EVOLVING AT LIGHTNING SPEED.

So you need an agile, multi-model approach that can keep pace with the tech.

WITH OUR EXPERT CONSULTANTS AND ENTERPRISE AI PLATFORM, WE ACCELERATE YOUR JOURNEY TO FULLY OPERATIONALISED AI.

From finding the best places to start with AI and fixing data quality issues, to enabling safe AI adoption and ensuring complete explainability for AI outputs.
