# Cut costs by up to 80% with AI-powered legacy decommissioning.

# Up to 80% cost savings, with AI-enhanced legacy decommissioning.

With the Aimi Insight Engine's Legacy Decommissioning tools, you have total control and visibility over your legacy data and everything you need to run your system migration, including:

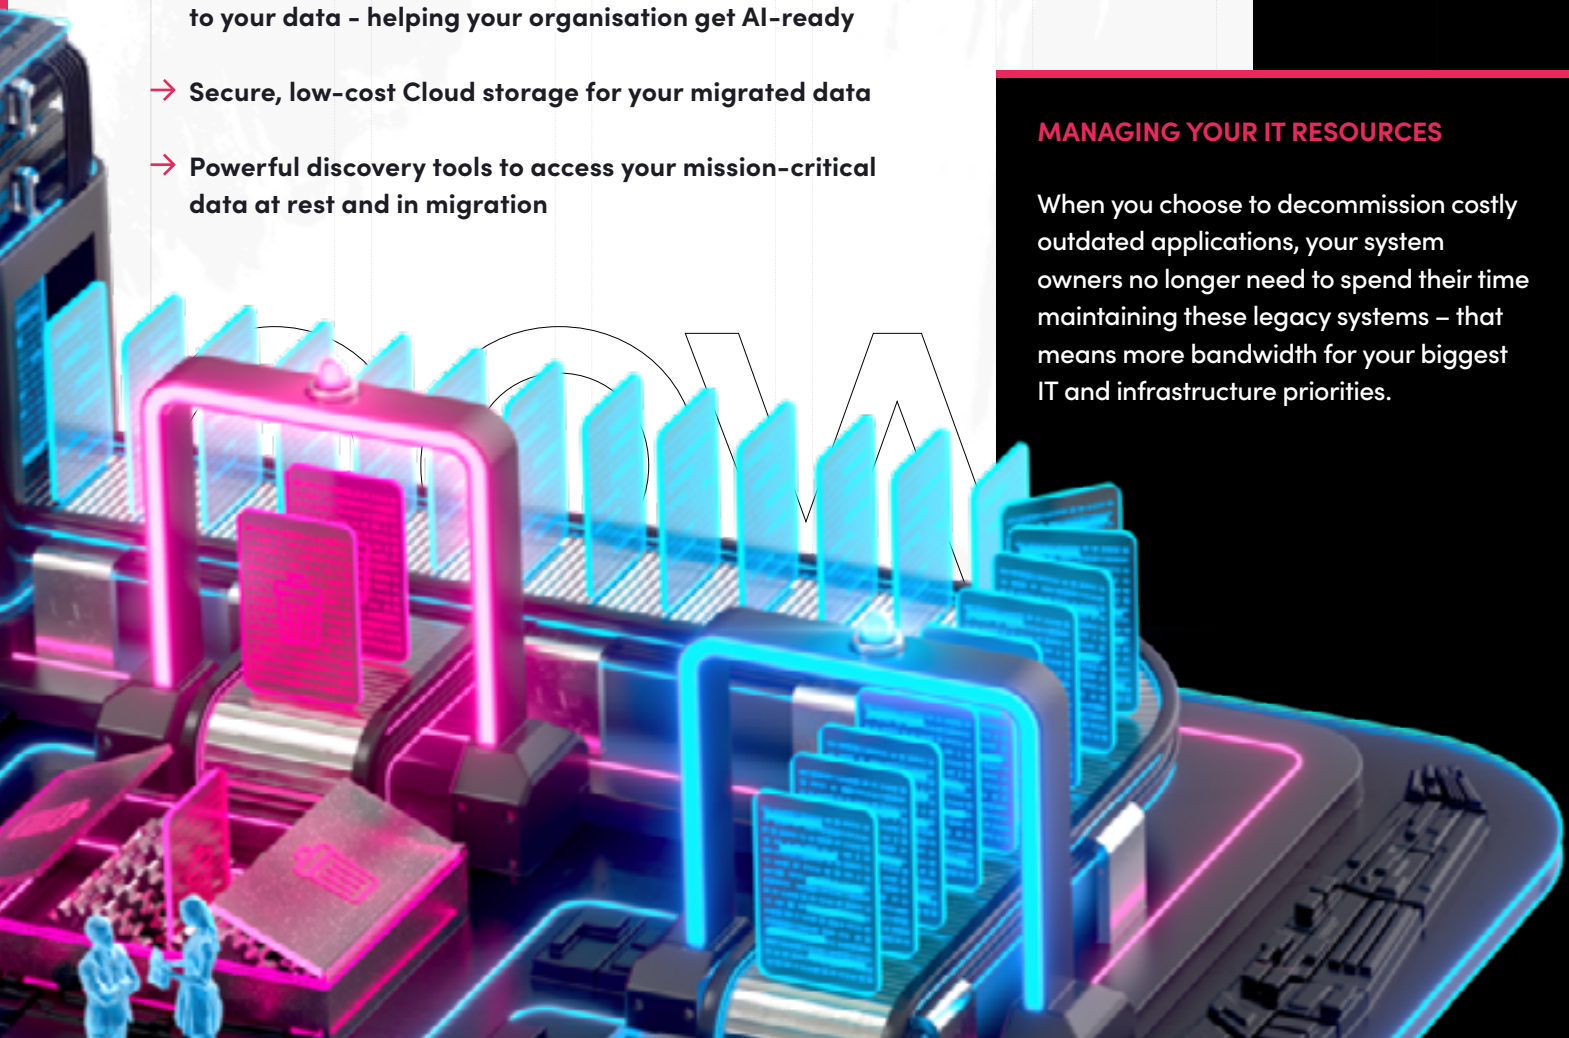

---

02  
04

- Support for all data systems and file types
- AI-powered enrichment to audit, derisk, and add value to your data - helping your organisation get AI-ready
- Secure, low-cost Cloud storage for your migrated data
- Powerful discovery tools to access your mission-critical data at rest and in migration

## MANAGING YOUR IT RESOURCES

When you choose to decommission costly outdated applications, your system owners no longer need to spend their time maintaining these legacy systems – that means more bandwidth for your biggest IT and infrastructure priorities.

# Delivering a 488% return on investment for a utilities company.

With savings of over £2.3million across 5 years, plus the Aiimi Insight Engine's added data risk and governance benefits, this Aiimi customer cut ties with their costly legacy system and maximised the value of their critical data.

## BEFORE | MAINTAINING THE LEGACY SYSTEM

System owner salary costs (1.5FTE)	£112,500/year
Maintenance Costs	£250,000/year
On-Premises Infrastructure & Support <small>including power, hardware, server support and maintenance, OS and database licensing, and backups</small>	£186,250/year
Nominal Risk Cost <small>including personal information disclosure risks, breach of improperly retained personal information, and loss of service recovery for legacy platform</small>	£10,000/year
<b>Total cost of the maintaining the legacy system</b>	<b>£558,750/year</b>

## AFTER | DECOMMISSIONING THE LEGACY SYSTEM USING AIIMI INSIGHT ENGINE

Installation and Migration project costs <small>one-time cost</small>	£35,000
Aiimi Insight Engine License Costs	£66,000/year
Azure Infrastructure Costs	£22,000/year
<b>Year One Cost using Aiimi Insight Engine</b>	<b>£123,000</b>
<b>Ongoing Annual Cost using Aiimi Insight Engine</b>	<b>£88,000*</b>

\* no Installation or migration project costs incurred beyond Year One

## TOTAL SAVINGS ACHIEVED USING THE AIIMI INSIGHT ENGINE

Savings in Year 1	£435,750
Savings in Year 2	£470,750

Savings over 5-year period

**£2,318,750** = 83% saved vs continuing legacy support

# Find out more.

With the Aiimi Insight Engine, the process of decommissioning legacy systems is enhanced by AI to provide far greater value – including visibility of mission-critical historical data, agile data storage, and an ongoing capability for future migrations, all with a competitive yearly ROI. Plus, by bringing together your entire data picture, it helps ready your organisation for AI adoption.

**If you're ready to find out more about the Aiimi Insight Engine, we'd love to help.**
