

CASE STUDY — NOW: PENSIONS

# NOW: Pensions.

AIIMI INSIGHT ENGINE SOLUTIONS USED:

## LEGACY DECOMMISSIONING

### \_PROBLEM

NOW: PENSIONS, ONE OF THE UK’S LARGEST PENSION PROVIDERS, NEEDED TO MIGRATE OVER 1TB OF DOCUMENTS FROM A LOCAL, ON-PREMISES SHARED DRIVE TO MICROSOFT’S SHAREPOINT. THE COMPANY WAS OPERATING UNDER NEW INTERNAL AND EXTERNAL DATA POLICIES, SO THEY NEEDED A MIGRATION SOLUTION THAT WOULD ALSO HELP THEM MEET THOSE REQUIREMENTS.

### \_SOLUTION

THE AIIMI INSIGHT ENGINE ENRICHED EVERYTHING IN NOW: PENSIONS’ SHARED DRIVE, BOTH STRUCTURED DATA AND UNSTRUCTURED CONTENT, TO IDENTIFY SENSITIVE INFORMATION, CLASSIFY DATA ACCORDING TO THE COMPANY’S OWN CRITERIA, AND REMOVE ANY DUPLICATE OR IRRELEVANT DATA, BEFORE MIGRATING THE DATA TO SHAREPOINT. AIIMI’S DATA EXPERTS ALSO DELIVERED TRAINING TO OVER 150 NOW: PENSIONS’ EMPLOYEES TO ENSURE THEY’D GET MAXIMUM VALUE FROM THEIR DATA IN ITS NEW LOCATION, INCLUDING DATA GOVERNANCE.

### \_RESULTS

MORE THAN 1TB OF DATA HAS BEEN SUCCESSFULLY MIGRATED FOR NOW: PENSIONS USING THE AIIMI INSIGHT ENGINE, ENSURING NEW DATA GOVERNANCE POLICIES ARE APPLIED CONSISTENTLY AND REGULATORY REQUIREMENTS ARE MET. FOR EXAMPLE, FOUR MILLION DOCUMENTS NO LONGER WITHIN THE ACCEPTABLE RETENTION POLICY WERE IDENTIFIED AND DELETED. THROUGH DECOMMISSIONING ITS LEGACY DRIVES, NOW: PENSIONS HAS BEEN ABLE TO SAVE ON MAINTENANCE COSTS, FREE UP INTERNAL IT RESOURCES, AND EMPOWER ITS PEOPLE WITH ACCESS TO THE INFORMATION THEY NEED.
