Aiimi Insight Engine Certification.

OVERVIEW OF THE BOOTCAMP CERTIFICATION PROGRAMME

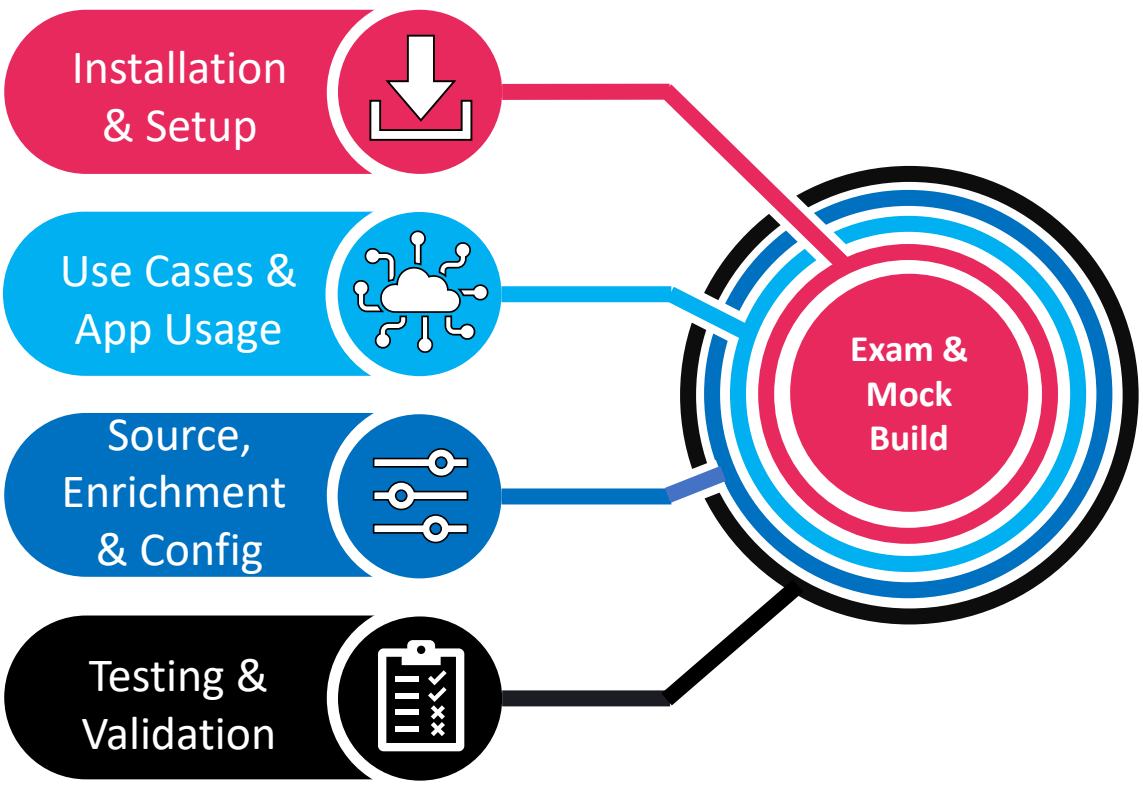
Bootcamp Certification Programme.

PROGRAMME OVERVIEW

Programme Objective.

This programme is designed to empower you with the fundamental knowledge and skills required to proficiently plan and execute Aiimi Insight Engine implementations. By successfully attaining the specified learning objectives, you will develop a comprehensive understanding of the installation and configuration processes associated with the Aiimi Insight Engine. Equipped with this knowledge, you will possess the capability to confidently address your clients' unique business cases. Additionally, you will gain fluency in the language of the Aiimi Insight Engine. This programme will empower you to evolve into a skilled implementer and a proficient user of the Aiimi Insight Engine.

Learning Path to Certification.



Learning Objectives.

1. Gain the ability to independently install the Aiimi Insight Engine on a local system.

2. Master the configuration of the Aiimi Insight Engine through the Control Hub, allowing you to set up Source, Enrichment, UI, and Access Control settings.

3. Acquire the skills to lead client workshops effectively, extracting the essential information required for a successful implementation of the Aiimi Insight Engine.

4. Become proficient in upgrading, troubleshooting, and providing support for the Aiimi Insight Engine, ensuring its smooth operation.

5. Develop the capability to train Subject Matter Experts (SMEs) in the effective use of the Aiimi Insight Engine for end-users.

Learning Path to Certification.

The Bootcamp and Certification Programme includes the following:

- 15 days of live instructor-led workshops and presentations that provide participants with everything they need to pass the Implementation Certification

- Leaners will complete assessments throughout the bootcamp to validate learning, followed by a post bootcamp test and Aiimi Insight Engine practical build.

To receive your certification, you will need to pass the exam and complete the practical build with minimal assistance.

Post Certification there will be a shadowing period.
